PHILIP UGBEDE ODODO

San Francisco, CA | +1-415-815-6743 | philipododo@gmail.com | linkedin.com/in/philip-ugbede-ododo-32802494

PROFESSIONAL SUMMARY

Operations leader with 7+ years owning incident triage, SLA compliance, and cross-functional escalation at a global telco. Built the bridge between frontline support teams and engineering repeatedly. At Telstra, led the rollout of internal tools, authored 60+ SOPs, and trained 45+ staff to 90% CRM adoption in 30 days. At Manpower/Kaspersky, drove SLA from 85% to 96% by identifying queue bottlenecks, standardizing resolutions, and translating agent pain points into actionable development tickets. Known for keeping teams aligned, keeping stakeholders informed, and keeping incidents moving toward resolution.

CORE COMPETENCIES

Incident Ops	Bug triage and outage identification, escalation path management, SLA compliance, ITSM (ServiceNow, BMC Helix Remedy)
Team Leadership	Agent coaching and performance management, onboarding, cross-functional coordination, stakeholder communication
Process and Tools	JIRA, Confluence, Medallia, Tableau, Power BI, SQL, Python, Excel, MS Power Automate, Visio
Documentation	SOP authoring, business process mapping, root cause analysis, management reporting

RELEVANT EXPERIENCE

Venture Analyst
May 2025 - Aug 2025

Innovest Afrika | Texas, USA

- Built and maintained Tableau dashboards tracking deal flow and portfolio health, improving diligence visibility by 30% and accelerating Investment Committee turnaround.
- Automated post-accelerator KPI tracking using Power Pivot; set up alerts for underperformance flags before they escalated to stakeholders.
- Cleaned and restructured pipeline data in Excel/Power Query, eliminating stale entries and improving data integrity for investment decisions.
- Worked directly with early-stage founders to clarify reporting requirements and strengthen investor-readiness processes.

Customer Experience Lead
Nov 2019 - Sep 2024

Telstra Global (Malaysia) Sdn. Bhd | Kuala Lumpur, Malaysia

- Led cross-functional teams through the rollout of new internal tools and coordinating between support, engineering, and training resulting in a 20% improvement in team performance.
- Analyzed 50,000+ Medallia customer records to surface churn drivers; findings fed directly into the product roadmap and lifted NPS by 15%.
- Authored 60+ SOPs and a full user-guide library; 90% of staff actively adopted new CRM modules within 30 days of launch.
- Ran monthly retrospectives to close feedback loops within two sprint cycles, sustaining a 4.5/5 stakeholder satisfaction rating over five years.
- Conducted requirement analysis for internal tool development projects, translating team pain points into structured briefs for engineering and optimizing workflow efficiency by 20%.
- Designed Visio business process diagrams to clarify team roles and responsibilities across the incident lifecycle.

- Developed and led training for 45+ staff across systems migrations, maintaining knowledge retention and minimizing post-launch support tickets.

Network Technical Specialist
Jun 2019 - Nov 2019

Telstra Global (Malaysia) Sdn. Bhd | Kuala Lumpur, Malaysia

- Served as first responder for production network incidents owning triage and resolution end-to-end with a median turnaround of 1h 42min and SLA compliance above 99%.
- Diagnosed incidents across WAN, LAN, routers, and servers; escalated unresolved issues to internal resolver teams (Transmission NOC, IPNOC, VNOC) with full context and reproduction steps.
- Documented incident patterns in Excel and presented findings to drive process fixes and reduce repeat failures.
- Coordinated with third-party Local Loop Service Providers to minimize downtime and maintain client satisfaction.
- Created SOPs and service documentation for troubleshooting procedures, improving MTTR and reducing repeat errors.

Assistant Team Lead - Technical Support
Nov 2015 - Apr 2019

Manpower Business Solutions (M) Sdn Bhd | Cyberjaya, Malaysia · Kaspersky Lab Project

Progression: Customer Relations Officer (Nov 2015) - Technical Support Representative (Jan 2017) - Assistant Team Lead / SME (Jan 2018)

- Escalation owner for the Kaspersky Lab support queue; triaged agent reports of bugs and outages, reproduced issues, and escalated to development with clear JIRA tickets and acceptance criteria.
- Improved team SLA from 85% to 96% by analyzing ServiceNow queue data, identifying bottlenecks, and redesigning resolution workflows.
- Translated frontline pain points into JIRA tickets with defined acceptance criteria, accelerating bug-fix cycles by 17%.
- Mentored and coached 70+ associates on tools, internal applications, and troubleshooting methodology; conducted onboarding and candidate interviews.
- Assessed vulnerability reports and prioritized remediation by criticality, exposure, and business impact; recognized as Best Quality Support Analyst, Kaspersky Lab Project (2016).
- Built the ROI case for a knowledge-base overhaul that secured executive budget approval, then led the rollout and adoption program.

EDUCATION

Master of Business Administration - Analytics
Sep 2024 - Aug 2025

Bachelor of Science - Information Technology (Network Technology)
Nov 2011 - Apr 2015

CERTIFICATIONS

- CCNA - Cisco Certified Networking Associate (Cisco ID: CSCO13290472)
- Advanced Diploma in Teaching, Training and Assessing Learning - City and Guilds, Level 3
- Introduction to Organizational Excellence (IOE) 2021
- Data Analytics Foundation - University of Technology Sydney, 2023
